## BODY-WORN CAMERA

PR1ME WITNESS BODY-WORN CAMERA

### ▼ OVERVIEW

The **PR1ME Witness** is Patrol Witness' state-of-the-art bodycam designed to improve officer safety and integrate fully with our **in-car PW6 video system**, as well as synchronize and record in tandem with it. With an **HD recording battery life of at least 7 hours** and a lightweight, yet rugged **IP54 design** complete with both **720P and 1080P HD** recording capabilities, the **PR1ME Witness** body-worn camera is more than just a bodycam. It's your first witness on the scene.

### ▼ SYSTEM HIGHLIGHTS

- Seven (7) to ten (10) hours of continuous HD recording battery life
- 120 hours of standby battery life

### ▼ We've Got You Covered

Picking up the PR1ME Witness bodycam wakes it to record right away, and in tandem with our in-car video system. Setting it down on the dock or connecting via USB cable rapidly charges the lithium polymer battery for seven (7) hours of HD recording time or 120 hours of standby time on a single charge. And with our four-year product replacement warranty\*, you can be absolutely certain we've got you covered.

### ▼ Enjoy Less Complaints

With PR1ME Witness continuous recording feature and 32GB of reliable flash storage, you'll never miss a single frame. See the frequency of both complaints and use-of-force incidents drop in half when there is an objective eyewitness on the scene capturing solid evidence. Let PR1ME Witness be your first witness on the scene.

### ▼ Back Up Your Claims

With the PR1ME Witness smartphone app and Video Evidence System (VES), you'll be able to easily categorize your video evidence, produce court-ready footage, and blow right through your paperwork more efficiently. Ensure your officers are protected from fraudulent claims and unwarranted litigation.

\*Under normal operating conditions

#### Exceptional Audio

Super sensitive, high-quality microphone with wind and noise-reduction

#### Exceptional Video

User can configure to record at either 720P or 1080P at 2Mbps to 6Mbps

#### Powerful Battery

Lasts 3 days on a single charge with up to 2 hours of HD recording per day

#### Auto Download

Connect to a PC to automatically initiate a video transfer via USB cable

#### Cloud Upload

Connect to a PC to automatically initiate a video upload to a remote drive
